The quantities per line item that bidders must quote by bid opening date to which Annex II applies constitute the maximum quantity per line item that can be ordered.

Consequently, the successful bidder will be obligated to supply the maximum quantity mentioned under the Purchase Order should the Navy requests its provision through the respective Provision Requests. However, the Navy will not be obligated to request the supply of the maximum quantity indicated in the Purchase Order, will not generate any liability for the Navy, nor will it provide the opportunity to any claim or compensation in favor of the supplier.

Should the Argentine Navy fail to issue Provision Requests to the successful bidder during the term of the Purchase Order, or the issuance of such Requests for a quantity of products less than the maximum established in these specifications, will not generate any liability for the Navy, nor will it provide the opportunity to any claim or compensation in favor of the supplier. (Articles 111, 112, 113, and 115 of the aforementioned Procedure Manual).

The Provision Requests submission will be carried out by the Navy based on the needs determined by the end user during the Purchase Order term. The successful bidder must deliver the goods required in each of the Provision Requests issued within 60 calendar days starting from the business day following the date that the Purchase Order was signed and notified (article 115 of the Procedure Manual approved by ONC Provision No. 62-E/16).

3. DELIVERY CONDITIONS FOR MATERIALS

The conditions under which the various products will be delivered will comply with the guidelines imposed by the manufacturer's directives to maintain their airworthiness in terms of identification, presentation, preservation, handling, packaging, and original labeling, without any amendments, scratches, or alterations; and with the characteristics indicated in each line of the request form, as well as reliable evidence of quality control and suitability for consumption recorded by the competent authority in the matter as requested in these specifications.

They will be identified with their National Stock Number and have the corresponding part number printed, engraved, or stamped.

4. MATERIAL QUALITY

The requested materials must be of Factory New (FN) quality.

Failure to clarify the material condition for each item, where applicable, will result in rejection of that line item.

Final acceptance will be evaluated by the technical entity through a binding Technical Report to the Evaluation Committee prepared by the Naval Air Arsenal "Almirante Zar".

Alternative Part Numbers may also be submitted with the corresponding supporting documentation.

5. TECHNICAL WARRANTY AND HIDDEN DEFECTS

The bidder shall guarantee that the goods supplied are free of manufacturing defects or any other visible and/or hidden defects or flaws. When hidden defects are considered to exist, the Air Naval Arsenal "Almirante Zar" may order all necessary tests, disassembly, or expert examinations to verify the existence of such defects or flaws.

Materials with expiration dates in stock/shelf (o-rings, seals, batteries, etc.) must be delivered upon receipt with more than EIGHTY percent (80%) of use until their expiration date.

The bidder must offer a written technical warranty for the purpose of this contract, for a period of no less than Six (6) months from the date of final receipt issued by the Receiving Committee.

If hidden defects, not initially detected, become apparent during the warranty period, the successful bidder must replace the material with another material of equal characteristics and functions.

Shipping, insurance, and reshipping costs for discrepancies and/or execution of warranties must be borne by the bidder.

If there are elements or situations for which the Guarantee does not apply, these must be clearly and explicitly detailed in the offer. Ambiguous descriptions, such as "misuse of the item," and subsequent additions to the explicit list of elements and/or situations not covered by the Guarantee will not be accepted.

6. DOCUMENTATION TO BE PRESENTED WITH THE DELIVERY OF MATERIALS

The required material, as applicable, must be accompanied by the following documentation: FAA Form 8130-3, EASA Form One, COC, or equivalent document. If the bidder submits an alternative or replacement component for the requested component, a copy of the technical documentation supporting such replacement must be submitted.

In cases where the originals of these forms are only issued for quantities greater than those ordered/purchased, a copy of said forms will be accepted as long as they are stamped as a TRUE COPY and signed by the Quality Control Area Manager.

In cases where the manufacturer (OEM) of standard materials does not issue FAA FORM 8130-3 or EASA FORM ONE certificates, the Certificate of Conformance will be accepted.

Full traceability will be the responsibility of the material manufacturer (OEM Full Traceability).

In cases where the originals of these forms are only issued for quantities greater than those ordered/purchased, a copy of these forms will be accepted as long as they are stamped as TRUE COPY and signed by the Quality Control Area Manager.

The successful bidder will be responsible for obtaining and maintaining, within the timeframes specified in these Specific Terms and Conditions, any required authorizations or licenses, such as Export Licenses, Import Licenses, or any other necessary government authorizations. Taller Aeronaval "Almirante Zar" and the successful bidder(s) will provide mutual assistance in all reasonably possible ways and means to secure and comply with such authorizations.

The successful bidder(s) agrees to comply with all applicable export control laws and, where applicable, ITAR (International Traffic in Arms Regulations) regulations (among others).
